Fortunately, I found out about Isagenix through a close friend in October, 2006. He was losing weight, toning up and his energy level was through the roof! I started the Isagenix products and had amazing, quick results: losing weight within days and finally loving my scale for the first time in my life! By using the Isagenix cleansing system, I was able to easily remove the impurities and rejuvenate my body with the most amazing nutrients available. I feel more alive and younger than I ever have.

After having incredible health results, I began learning more about the company and its talented leadership team. I saw an opportunity for another revenue stream and knew immediately it was the right time to take advantage of it! I was ready for a change!

My Isagenix income will allow me to pursue my passions and bring them to another level. My financial success with Isagenix provides me the resources I need to help my community and the charities that are so close to my heart. I also have a vision of owning a home in the Caribbean to be shared with my family and friends.

I love the fact that you can adapt the Isagenix opportunity to your own needs, desires, goals, and dreams. I believe that anyone who has the desire to change, the courage to take action and move in a new direction is someone I would like to help reach to the stars!
